Data plate interpretation

Introduction

The ITT product is always provided with data plates:

- The general data plate is used on all products.
- The approval plate is added to all explosion proof products.

Data plate

The product may only be operated within the parameters stated on the data plate.

Illustration

This is an illustration of a general data plate.

Field description

This table shows the fields on the general data plate, and which information each field contains.

Field	Description	Field	Description
1	Pump model	9	Read installation manual
2	Serial number	10	Thermal class
3	Phase; type of current; frequency	11	International standard
4	Product weight	12	Rated shaft power
5	Maximum capacity	13	Country of origin
6	Maximum submergence	14	Rated current
7	Maximum head	15	Rated voltage
8	Degree of protection	-	-

Product denomination

Sales denomination

The product's identity is built up of the Sales Code (four digit) and two letters indicating hydraulic end and type of installation.

This is an example of a sales denomination.

Table: This table explains what the letters and the numbers in the sales code stand for.

Code Position	Gives information about the...
1	hydraulic part
2	installation mode
3	sales code

Product code

In each range the product's identity, Product Code, is made up of seven digits.

This is an example of a product code.

Table: This table explains what the product code is made up of:

Code position	Gives information about the ...
1	sales denomination
2	version

Serial number

The serial number is used for identification of an individual pump/mixer.

This is an example of a serial number.

NP 3085.183 - 951 0163

1 2 3 4

Table: This table explains what the serial number is made up of:

Product code position	Gives information about the ...
1	product code
2	production year
3	production cycle
4	running number

Order parts

Order

When ordering spare parts, state serial number of the product, spare part number and quantity.

Requirements

Genuine ITT parts must always be used for repairs if the product is to fulfill requirements and obtain official approval.

Qualification of personnel

Only ITT or ITT-authorized service personnel may undertake repair work on Ex-approved products.

Specially approved products

Spare parts marked with ^(EX) after the part number are subject to dimensional accuracy inspection.
